## Garden Fairy

Yes, she looks like glass, but this cute fairy is made from Isomalt

In this 4-hour class you'll be working with Cakeplay's premade Isomalt, heat lamp, molds and yes, a torch! We'll be covering cooking, heating, safety, coloring, storing, pouring, and learning how to prepare the Isomalt for pulling, pouring, and shaping techniques. The Fairy body is all hand formed and her dress is made from pulled pedals and the wings made using a mold.

She'll be place on a pre-made base.
